Now! A Shaving Cream that's "MENTHOLATED"

For
Extra
After-
Shave
Coolness

Colgate Lather Shaving Cream's
2-in-1 Tonic Action Gives You

A SMOOTHER CHIN
A COOLER SKIN

Agreed—there's not much pleasure to be found in shaving. But now, there's no need for pain, either. Think of it! No more jagged "pulling" while you shave. And none of that burning dryness or stinging razor rash afterwards. Why? Because Colgate Lather Shaving Cream, with its unique 2-in-1 tonic action, can come to terms with the tenderest skin. First, its richer, creamier lather gets right in and softens the toughest whiskers... makes way for a quicker, cleaner shave. Then, even before you've finished, you can feel the mentholated coolness of its new tonic ingredient hard at work... toning up your skin and refreshing your face with a cool comfort that'll last all day.

'MENTHOLATED'
Lather Shaving Cream

What Price
COMFORT?

If in doubt, experiment with a trial tube of Colgate's (only 1/34) and use it daily until the tube is gone. Then see if its thick creamy lathers and mentholated coolness haven't given you the cleanest, most comfortable shaves ever. (Also in larger 2½-size)

International Conference

JUNE

1951

DURING the present month of June—while the Festival of Britain is at its height—Hoover Limited are holding an International Conference in London.

The Conference is being attended by delegates from all over the world, representing the sixty-six countries to which Hoover products are exported—in ten of which Hoover Limited have prominent and successful associated companies.

Over and above its value to the Hoover organisation, the Conference serves a much wider purpose, for undoubtedly nothing is of more importance to the community as a whole than the strengthening of the ties between Britain and her customers overseas.

HOOVER LIMITED
